25 [REDACTED]

1. [REDACTED] copies were made of Soviet manuals describing the model RPG-6 antitank hand grenade and the model F-1 hand grenade. *

25X1A * [REDACTED] Comment. Toward the end of World War II the model RPG-6 hand grenade became known as an improved version of an antitank hand grenade with hollow charge and is believed to still be a modern standard weapon. The model F-1 hand grenade was used for the defense against infantry from the beginning of World War II and still belongs to the standard equipment of Soviet armored vehicles. For copies see Annexes.

2 Annexes: Soviet manuals.
